

Foulridge Best Garden Competition

  . The results are in   .

Congratulations to all gardeners as the weather has not been kind this year, suffering extreme heat or deluged by rain, it has been a challenge to all. However, having received very few entry notifications, we visited every garden in Foulridge that was visible from outside the property and we chose these two.

Best Garden was awarded to Eric and William Lane of 11 Sycamore Gardens. The judges felt that a lot of style and design had gone into the corner garden using local stone and drought resistant plants.

Runner up was awarded to Bev and Nick Moore of 14 Warehouse Lane who had transformed a small concrete front garden into a mini green oasis complete with water feature.

Special mention to the residents of Cromwell Street and Wilson Street who add a real show of colour and coming together. What a great display you both made, a credit to the village.
